

TODAY ANNOUNCES PARTNERSHIP WITH THE NETWORK OF VETERINARY CLINICS VETFAMILY

Paris, June 9th 2022,

TODAY has concluded a partnership with **VetFamily**, one of the largest veterinary networks with 4400 clinics worldwide and more than 650 clinics in France. This partnership aims to offer our Pet Insurance product DROOKY.COM in all the veterinary clinics of the VetFamily network.

DROOKY.COM is different from the current market offer because of the following specificities:

- We can insure an animal in a few seconds;
- We have developed a third-party payment system allowing our members not to advance the costs we insure;
- Our members can freely manage their contract from their personal online space and file their claims online;
- Each of our members is associated with one of our managers: we give him his name and contact information so that he can contact him if necessary;
- We have a unique protection for our older members;
- We include our guarantees in those of mutual health insurance companies because we are convinced that dogs and cats are part of the family;
- We manage everything ourselves from our Paris office, with real smiling and involved people! Nothing is outsourced!

Above all, we have the ambition to be a "tech" company: all our developments are centralized in our "cloud" tool called **JUNO**, which allows us to automate everything that can be done, to improve our quality of service.
